INDEX

PROCEEDINGS OF THE AMERICAN CONCRETE INSTITUTE

VOLUME 37—1941

From JOURNAL OF THE AMERICAN CONCRETE INSTITUTE, Vol. 12, Sept. 1940, to June 1941 and Supplement, November 1941

This is an Index of:

Original contributions to the JOURNAL OF THE AMERICAN CONCRETE INSTITUTE—papers, reports, discussions by subject, title and author.

For the convenience of the reader who is referring to JOURNAL issues rather than to Bound Volumes (in which discussion is assembled following the paper discussed) there is a reference to JOURNAL issue in which discussion appeared. This reference is by supplementary page numbers. If the last page of a paper is 28, the first page of the discussion, published later, is 28-1.

In general, important subjects are classified and indexed under approximately 30 main headings each one appearing in its proper alphabetical order in bold face capital letters—as for instance, ARCHITECTURAL DESIGN. "Housing," and other subjects classified under this head, are indented.

Key words to important subjects, appear, in alphabetical order in addition to the general classification—as for instance "Admixtures" and "Aggregates" each referring to MATERIALS AND TESTS under which all allied references appear, indented. Authors' names and original titles of papers appear in bold face type in proper alphabetical sequence with the subjects, with references to their contributions.

Specific data on Beams are so indexed by reference to ENGINEERING DESIGN or TESTS OF MEMBERS AND COMPLETED STRUCTURES thus avoiding an oversight by the searcher of important allied data.

The readiest use may be made of this index by gaining some familiarity with the main classifications as follows:

ARCHITECTURAL DESIGN

BIBLIOGRAPHIES

BREAKWATERS—DOCKS AND SEA WALLS

BRIDGES

BUILDING CODES

BUILDINGS

BUILDING UNITS

CENTRAL MIXING

COMMITTEES

CONSTRUCTION—DETAILS, METHODS AND COSTS

CURING

DAMS

DURABILITY

ENGINEERING DESIGN

FAILURES

FIRES, FIRE TESTS AND FIRE-PROOFING

LAWS AND PROPERTIES

MASONRY UNITS

MATERIALS AND TESTS

MIXTURES

PAVEMENT

PERMEABILITY

PIPE

PRECAST UNITS

RAILWAY USES

RESEARCH

RESERVOIRS AND TANKS

SEWERS

SPECIFICATIONS

STRUCTURAL MEMBERS

SURFACES

TESTS AND FIELD CONTROL

TESTS OF MEMBERS AND COMPLETED STRUCTURES

WATER WORKS

A

Abrams, Duff A.—Disc. Problems presented by the Lake Washington floating bridge.(June '41 Jl.)..... 268–1
—Disc. A twelve-year record of concrete mixtures. (June '41 Jl.)..... 280–1
Absolute volume—Method of determining yield.—Ready-mix. Knopel..... 649
Absorptive wall board forms. Johnson.... 621
Advantage of square-twisted reinforcing bars. (JPP 37-69) Richart..... 696
Airport construction—Washington National. Reynolds..... 633
Allen, Harold—Disc. Concrete control on the Pennsylvania Turnpike. (Suppl. '41)..... 376–1
Alkalies—Disintegration—Nature and processes. Berkey..... 689
American Concrete Institute—How it functions—What it stands for. Young 529
Anderson, Harvey R. (with Hutchcroft)—The use of carbon dioxide to reduce efflorescence on asbestos-cement shingles..... 597
Andrew, Charles E.—Problems presented by the Lake Washington floating bridge..... 253
Andrews, L. E.—Disc. Expediting construction on the Pennsylvania Turnpike. (Suppl. '41)..... 360–1
Aqueduct—Tunnel lining. Clark and Spann..... 325
Arches—Plain and reinforced—Report of Com. 312. Whitney..... 1
ARCHITECTURAL DESIGN
Housing—Flat plate rigid frame. DiStasio. 309
Housing—Low cost fireproof project, Chicago. Metz..... 461
Stucco—Polished mechanically. Kaspareit 605
Arid climate—Effect on concrete. Stanton 141
Asbestos-cement shingles—Efflorescence Carbon dioxide treatment. Hutchcroft and Anderson..... 597

B

Ball, Charles F.—How can a mixer drum be kept clean? (JPP 37-61)..... 73
Berkey, Charles P.—The nature of the processes leading to the disintegration of concrete, with special reference to excess alkalies 689
BIBLIOGRAPHIES
Arches—Plain and reinforced. Report of Com. 312. Whitney..... 1
Bishop, C. T.—Technical tedium or otherwise. (JPP 37-71)..... 699
Blanks, R. F.—Disc. Grouting of Concrete Structures. (Suppl. '41)... 648–1
Bleeding — Relation to consistency. Scholer..... 537
Bloom—Efflorescence on cement products. Hutchcroft and Anderson..... 597
Boase, A. J.—Disc. Construction of the Terminal Building—Washington National Airport. (Suppl. '41)..... 640–1
Bond—Deformed bars—Effect of Rust. Johnston and Cox..... 57
Bond strength of rusted deformed bars. Johnston and Cox..... 57
BRIDGES
Floating—Lake Washington—Problems presented. Andrew..... 253
BUILDING CODES
Proposed building regulations for reinforced concrete. Report of Com. 318. Stephens and Zipprodt..... 77
—Disc. Conv., Peebles, and Com. (June '41 Jl.)..... 140–1
BUILDINGS
Airport terminal construction—Washington National Airport. Reynolds..... 633
Housing projects—Cracks in exterior masonry walls. Korsmo and Thorud..... 49
Repairs—Fire damage. Fruchtbaum..... 201
Storage—Sack house—Unusual roof. Hadley..... 453

C

Cape, E. B.—Design and control of concrete paving mixtures—Texas..... 413
Capping Specimens—Sulfur. (JPP-37-68) Collins..... 693
Carbon dioxide to reduce efflorescence—Asbestos shingles. Hutchcroft and Anderson..... 597
Carlson, Roy W.—How fast to place concrete dam sections and avoid shrinkage difficulties? (JPP 37-62)..... 75
—(with Kammer)—Investigation of causes of delayed expansion of concrete in Buck Hydroelectric plant..... 665
Clark, Charles M. (with Spann)—Tunnel lining practice on the Delaware aqueduct... 325
Clemmer, H. F.—Proposed specifications for concrete pavements and bases—Report of Com. 617..... 377
—Placing and finishing pavement concrete... 657
Code—A. C. I. for design with high yield point reinforcement. Germundsson..... 569
Collins, H. G.—Sulfur mixtures for capping. (JPP 37-68)..... 693
Columns with high yield point reinforcement designed under the A. C. I. code. Germundsson..... 569
—Disc. Conv., Richart, Withey, Friberg, Germundsson. (Suppl. '41)... 576–1
Committee 312 Report—Plain and Reinforced Concrete Arches. Whitney..... 1
—Disc. Ernst, Whitney. (Suppl. '41) 28–1
Committee 318 report—Proposed building regulations for reinforced concrete. Stephens and Zipprodt..... 77
—Disc. Conv., Peebles, and Com. (June '41 Jl.)..... 140–1

Committee 617 report—Proposed specifications for concrete pavements and bases. Clemmer..... 377
Concrete control on the Pennsylvania Turnpike. Tyler..... 361
—Disc. Conv., Miller, Allen, Tyler. (Suppl. '41)..... 376–1
Concrete exposed to Sulphur Water. Nelles..... 441
Concrete performance in an arid climate. Stanton..... 141
Consistent inconsistencies in the consistency of concrete. Scholer..... 537
—Disc. Gruenwald, Foresman. (Suppl. '41)..... 548–1
CONSTRUCTION—DETAILS, METHODS AND COSTS
Airport terminal building—Washington National Airport. Reynolds..... 633
Bridge—Pontoon—Lake Washington. Andrew..... 253
Building repair — Fire damage — General Mills building. Fruchtbaum..... 201
—Sack house—Hollow girders and precast slab. Hadley..... 453
Columns—High yield point reinforcement—A. C. I. code. Germundsson..... 569
Equipment—Mixer drum—Cleaning. (JPP 37-61) Ball, Gardiner..... 73
Forms—Absorptive wall board. Johnson... 621
Forms—Oiling (JPP 37-66) Tuthill..... 298
Grouting—Strengthening weak structures. Creaghan..... 641
Highway—Pennsylvania turnpike. Miller.. 349
Housing—Flat plate rigid frame. DiStasio 309
—Ida B. Wells project, Chicago. Metz.... 461
Masonry walls—Avoiding shrinkage in. (JPP 37-72) Kaiser..... 704
Mixing and placing—Building regulations—Report of Com. 318. Stephens and Zipprodt..... 77
Navy structures—Fixed fee contracts. (JPP 37-70)..... 697
Pavements and bases—Specifications—Report of Com. 617. Clemmer..... 377
—Control of mixtures. Cape..... 413
—Placing and finishing. Clemmer..... 657
Placing—Mass blocks—Dam sections—To avoid shrinkage. (JPP 37-62) Carlson.. 75
Repair—Fire damaged building. Fruchtbaum..... 201
Stucco facing—Polished. Kaspareit..... 605
Subway structures—Chicago's initial system. Gunlock..... 497
Tunnel lining—Delaware aqueduct. Clark and Spann..... 325
—Methods compared. Tuthill..... 29
—Subways—Chicago's initial system. Gunlock..... 497
Construction of Chicago's initial system of subways. Gunlock..... 497
—Disc. combined with Design of . (See Girard) Conv., Germundsson, Richart, Young, Withey, McCarthy, Pearson, Girard, Gunlock. (Suppl. '41).. 508–1
Construction of the Terminal Building—Washington National Airport. Reynolds 633
—Disc. Conv., Sheldon, Boase, Macklin, Parsons, Reynolds. (Suppl. '41). 640–1
Contracts—Fixed fee. (JPP 37-70)..... 697
Correlation between rapid immersion and standard four cycle per day freezing and thawing tests. Dawley..... 157
Corrosion of lead in buildings. (JPP 37-65) 186
Controlling quality—Pavement—Pennsylvania Turnpike. Tyler..... 361
Cox, Kenneth C. (with Johnston)—The bond strength of rusted deformed bars. 57
Cracking in concrete due to expansive reaction between aggregate and high-alkali cement as evidenced in Parker Dam. Meissner..... 549
—Disc. Hinds, Tuthill, Insley, Meissner. (Suppl. '41)..... 568–1
Cracking tendency in dams—Effects of materials. (JPP 37-67) Meyers..... 517
Cracks in exterior masonry bearing walls occurring where concrete roof and floor slabs bear on the walls. Korsmo and Thorud..... 49
—Disc. Parsons and Schreier. (June '41 Jl.)..... 56–1
Creaghan, T. C.—The grouting of concrete structures..... 641
—Disc. (Suppl. '41)..... 648–1
Crum, R. W.—Technical tedium or otherwise. 589
—Disc. Design and control of paving concrete in Iowa. (Suppl. '41)..... 588–1
CURING
Pavement and bases—Specifications—Report of Com. 617. Clemmer..... 377

D

DAMS
Gallipolis and Winfield—Cracking tendency—Effect of materials. (JPP 37-67) Sprague..... 700
Gravity—Cracking—Effects of materials. (JPP 37-67) Meyers..... 517
Mass blocks—Shrinkage difficulties. (JPP 37-62) Carlson..... 75
Parker—Cracking due to expansion. Meissner..... 549
Repairs by grouting. Creaghan..... 641
Davis, Harmer E. (with Davis and Kelley—Weathering resistance of concretes containing fly-ash cements..... 281
Davis, Raymond E. (with Davis and Kelly)—Weathering resistance of concretes containing fly-ash cements..... 281
Dawley, E. R.—Correlation between rapid immersion and standard four cycle per day freezing and thawing tests..... 157
Density—Relation to consistency. Scholer... 537

Design of Chicago's initial system of subways. Girard..... 473
—Disc. combined with Construction of. . (See Gunlock) Conv., Germundsson, Richart, Young, Withey, McCarthy, Pearson, Gunlock, Girard. (Suppl. '41)..... 508–1
Design and control of concrete paving mixtures—Texas. Cape..... 413
—Disc. Conv., Jackson. (Suppl. '41). 432–1
Design and control of paving concrete in Iowa. Myers..... 577
—Disc. Conv., Crum, Pearson, Jackson, Kelley, Tuthill. (Suppl. '41)... 588–1
Design of light-weight zonolite concrete mixes. Tschebotarioff..... 509
Discrepancies between the volume of fresh concrete at the ready-mix plant and the volume in final placement. Knopel..... 649
—Disc. Conv., Levison, Whitten, Hutchinson, Sprague, Knopel. (Suppl. '41)..... 656–1
DiStasio, Joseph—Flat plate rigid frame design of low cost housing projects in Newark and Atlantic City, N. J..... 309
DURABILITY
Deterioration—Action of high-alkali cements on aggregates. Tremper..... 673
Deterioration—Chemical reaction—Aggregate and cement. Meissner..... 549
Disintegration—Effect of alkalies. Berkey. 689
Disintegration—Relation to consistency. Scholer..... 537
Disintegration — Scouring — Sand-laden water. (JPP 37-63)..... 75
Dustproofing concrete floor. (JPP 37-64).. 185

E

Effects of materials on cracking tendency in dams. (JPP 37-67) Meyers..... 517
Effects of materials on cracking tendency in dams. (JPP 37-67) Sprague..... 700
Effect of various reagents on the heat liberation characteristics of portland cement. Forbrich..... 161
Ernst, George C.—Disc. Plain and reinforced concrete arches—Report of Com. 312. (Suppl. '41)..... 28–1
Erosion—Effect of sand-laden water. (JPP 37-63)..... 75
Evidence in Washington of deterioration of concrete through reactions between aggregates and high-alkali cements. Tremper..... 673
Expediting construction on the Pennsylvania Turnpike. Miller..... 349
—Disc. Andrews, Miller. (Suppl. '41) 360–1
ENGINEERING DESIGN
Airport terminal building—Washington National Airport. Reynolds..... 633
Arches—Plain and reinforced—Report of Com. 312. Whitney..... 1
Bridge—Pontoon—Lake Washington. Andrew..... 253
Buildings—Proposed regulations—Report of Com. 318. Stephens and Zipprodt..... 77
Columns—ACI code. Germundsson..... 569
Flat plate rigid frame—Housing projects. DiStasio..... 309
Housing—Fireproof—Low cost, Chicago. Metz..... 461
Pavement—Control of mixtures. Cape.... 413
Pavement—Iowa practice. Myers..... 577
Subway structures—Chicago's initial system. Girard..... 473

F

FAILURES
Expansive reaction—Cement and aggregate. Meissner..... 549
Wall cracks—Exterior masonry bearing walls. Korsmo and Thorud..... 49
Fire damage to General Mills building and its repair. Fruchtbaum..... 201
—Disc. Conv., Ingberg, Fruchtbaum. (June '41 Jl.)..... 252–1
Flat plate design—Housing projects. DiStasio..... 309
Flat plate rigid frame design of low cost housing projects in Newark and Atlantic City, N. J. DiStasio..... 309
Floors—Dustproofing. (JPP 37-64)..... 185
Forbrich, L. R.—The effect of various reagents on the heat liberation characteristics of portland cement..... 161
Foresman, C. H.—Disc. Consistent inconsistencies in the consistency of concrete. (Suppl. '41)..... 548–1
Freezing and thawing—Correlation with rapid immersion. Dawley..... 157
Friberg, Bengt—Disc. Columns with high yield point reinforcement designed under the ACI code. (Suppl. '41)..... 576–1
Fruchtbaum, F.—Fire damage to General Mills building and its repair..... 201
—Disc. (June '41 Jl.)..... 252–1

G

Gardiner, Lion—How can a mixer drum be kept clean? (JPP 37-61)..... 73
—Disc. Placing and finishing pavement concrete. (Suppl. '41)..... 664–1
Germundsson, Thor—Columns with high yield point reinforcement designed under the ACI code..... 569
—Disc. (Suppl. '41)..... 576–1
—Disc. 2 papers. Design of, and Construction of Chicago's initial system of subways. (Suppl. '41)..... 508–1
Girard, P. F.—Design of Chicago's initial system of subways..... 473

—Disc. combined with Construction of. . (See Gunlock) (Suppl. '41).... 508–1
Girders—Hollow—Unusual concrete roof. Hadley..... 453
Glover, V. L.—A twelve-year record of concrete mixtures..... 269
—Disc. (June '41 Jl.)..... 280–1
—**Erratum**—Fig. B and C in the Discussion were interchanged as published June, p. 280-10.
Grinter, L. E. (with Kepford)—Long-time overload tests of a T-beam floor panel..... 433
Grouting of concrete structures. Creaghan 641
—Disc. Conv., Blanks, Young, Creaghan. (Suppl. '41)..... 648–1
Grouting—Strengthening weak structures. Creaghan..... 641
Gruenwald, Ernest—Disc. Consistent inconsistencies in the consistency of concrete. (Suppl. '41)..... 548–1
Gunlock, V. E.—Construction of Chicago's initial system of subways..... 497
—Disc. combined with Design of. . (See Girard) (Suppl. '41)..... 508–1

H

Hadley, Homer M.—Unusual concrete roof of hollow girders and precast slabs..... 453
Heat liberation characteristics of portland cement.—Effect of reagents. Forbrich.. 161
Hinds, Julian—Disc. Cracking in concrete due to expansive reaction between aggregate and high-alkali cement as evidenced in Parker Dam. (Suppl. '41)..... 568–1
Housing projects—Flat plate rigid frame design. DiStasio..... 309
Housing—Low cost fireproof project, Chicago. Metz..... 461
How to avoid shrinkage in concrete masonry walls? (JPP 37-72) Kaiser..... 704
How can a mixer drum be kept clean? (JPP 37-61) Ball, Gardiner..... 73
How fast to place concrete dam sections and avoid shrinkage difficulties. (JPP 37-62) Carlson..... 75
How to design concrete mixtures? (JPP 35-21) Sprague..... 297
How to dustproof a concrete floor. (JPP 37-64)..... 185
How to prevent corrosion of lead in buildings? (JPP 37-65)..... 186
Hutchcroft, Clyde R. (with Anderson)—The use of carbon dioxide to reduce efflorescence on asbestos-cement shingles..... 597
Hutchinson, George W.—Disc. Discrepancies between the volume of fresh concrete at the ready-mix plants and the volume in final placement. (Suppl. '41)..... 656–1

I

Ingberg, S. H.—Disc. Fire damage to General Mills Building and its repair. (June '41 Jl.)..... 252–1
Insley, Herbert—Disc. Cracking in concrete due to expansive reaction between aggregate and high-alkali cement as evidenced in Parker Dam. (Suppl. '41)..... 568–1
Investigation of causes of delayed expansion of concrete in Buck Hydroelectric plant. Kammer and Carlson..... 665

J

Jackson, F. H.—Disc. Design and control of concrete paving mixtures—Texas. (Suppl. '41)..... 432–1
—Disc. Design and control of paving in Iowa. (Suppl. '41)..... 588–1
Johnson, W. R.—The use of absorptive wall boards for concrete forms..... 621
Johnston, Bruce (with Kenneth C. Cox)—The bond strength of rusted deformed bars. 57

K

Kaiser, W. G.—How to avoid shrinkage in concrete masonry walls. (JPP 37-72)..... 704
Kalousek, George L.—Disc. Nature of the processes leading to the disintegration of concrete, with special reference to excess alkalies. (Suppl. '41)..... 692–1
Kammer, H. A. (with Carlson)—Investigation of causes of delayed expansion of concrete in Buck Hydroelectric plant..... 665
Kaspareit, Walter B.—Stucco mechanically polished on Columbia Broadcasting Studios 605
Kelley, E. F.—Disc. Design and control of paving concrete in Iowa. (Suppl. '41)..... 588–1
Kelly, J. W. (with Davis and Davis)—Weathering resistance of concretes containing fly-ash cements..... 281
Kepford, Burge (with Grinter)—Long-time overload tests of a T-beam floor panel..... 433
Knopel, Herbert J.—Discrepancies between the volume of fresh concrete at the ready-mix plant and the volume in final placement 649
—Disc. (Suppl. '41)..... 656–1
Korsmo, A. M. (with B. M. Thorud)—Cracks in exterior masonry bearing walls occurring where concrete roof and floor slabs bear on the walls..... 49
—Disc. Ida B. Wells low-cost project in Chicago. (Suppl. '41)..... 472–1

L

LAWS AND PROPERTIES
Bond—Advantage of square twisted bars. (JPP 37-69) Richart..... 696
Bond strength—Rusted deformed bars. Johnston and Cox..... 57
Consistency—Inconsistencies in. Scholer... 537
Cracking tendency—Dams—Effects of materials. (JPP 37-67) Meyers..... 517

Efflorescence—Asbestos-cement shingles—Treatment. Hutchcroft and Anderson... 597
Expansion—Causes of. Kammer and Carlson... 665
Expansion — Cracking in Parker dam. Meissner... 549
Heat liberation—Effect of reagents. Forbrich... 161
Impermeability—Effect of absorptive wall board forms. Johnson... 621
Resistance to alkalies. Berkey... 689
Resistance to arid climate. Stanton... 141
Resistance to sulphur water. Nelles... 441
Shrinkage—Relation of speed in placing mass blocks. (JPP 37-62) Carlson... 75
Volume variation—Ready-mix. Knopel... 649
Weathering resistance—Fly-ash cements. Davis, Davis and Kelly... 281
Temperature rise—Cracking in dams. (JPP 37-67) Sprague... 700
Lead—Prevention of corrosion in buildings. (JPP 37-65)... 186
Levison, Arthur A.—Disc. Tunnel lining practice on the Delaware aqueduct. (Suppl. '41)... 348–1
—Disc. Discrepancies between the volume of fresh concrete at the ready-mix plant and the volume in final placement. (Suppl. '41)... 656–1
—Disc. Placing and finishing pavement concrete. (Suppl. '41)... 664–1
Long-time overload tests of a T-beam floor panel. Grinter and Kepford... 433

M

Macklin, Charles—Disc. Construction of the Terminal Building—Washington National Airport. (Suppl. '41)... 640–1
MASONRY UNITS
Block—Shrinkage in walls. (JPP 37-72) Kaiser... 704
MATERIALS AND TESTS
Admixtures—Effect in arid climate. Stanton... 141
Admixtures—Fly-ash—Resistance to weathering. Davis, Davis and Kelly... 281
Aggregates—Deterioration due to high-alkali cement. Tremper... 673
Aggregates—Effect of alkalies. Berkey... 689
Aggregates—Effect of freezing and thawing. Dawley... 157
Aggregates — Light-weight — Zonolite. Tschebotarioff... 509
Aggregate—Paving in Iowa. Myers... 577
Aggregate—Phyllite—Cause of delayed expansion. Kammer and Carlson... 665
Aggregate — Reaction with high-alkali cement. Meissner... 549
Building—Proposed regulations—Report of Com. 318. Stephens and Zipprodt... 77
Cements—Effect of grind on cracking tendency in dams. (JPP 37-67) Sprague... 700
Cements—Fly-ash—Weathering resistance. Davis, Davis and Kelly... 281
Cement—High-alkali—Reaction with aggregate. Meissner... 549
Cements—High-alkali—Reaction with aggregates. Tremper... 673
Deformed bars—Bond strength—Effect of rust. Johnston and Cox... 57
Form oil—Sticking to metal forms. (JPP 37-66) Tuthill... 298
Portland cement—Heat liberation—Effect of reagents. Forbrich... 161
Reinforcing bars—Square twisted. (JPP 37-69) Richart... 696
Sulfur—Mixtures for capping. (JPP 37-68) Collins... 693
McCarthy, J. A.—Disc. 2 papers. Design of, and Construction of Chicago's initial system of subways. (Suppl. '41)... 508–1
McMinn, R. B.—Disc. Problems presented by the Lake Washington Floating Bridge. (June '41 Jl.)... 268–1
Meissner, H. S.—Cracking in concrete due to expansive reaction between aggregate and high-alkali cement as evidenced in Parker Dam... 549
—Disc. (Suppl. '41)... 568–1
Metz, Carl A.—The Ida B. Wells low-cost housing project in Chicago... 461
—Disc. (Suppl. '41)... 472–1
Meyers, S. L.—Effect of materials on cracking tendency in dams? (JPP 37-67)... 517
Miller, H. Hershey—Expediting construction on the Pennsylvania Turnpike... 349
—Disc. (Suppl. '41)... 360–1
—Disc. Concrete control on the Pennsylvania Turnpike. (Suppl. '41)... 376–1
MIXTURES
Design—Method. (JPP 35-21) Sprague... 297
Design—Mortar-voids method. Glover... 269
Design—Pavement. Myers... 577
Design for paving—Texas. Cape... 413
Proportions—Control in paving mix. Myers 577
Proportions—Mortar-voids method. Glover 269
Mortar-voids method of mix design. Glover... 269
Myers, Bert—The design and control of paving concrete in Iowa... 577
—Disc. (Suppl. '41)... 588–1

Pavements and bases—Report of Com. 617. Clemmer 377
Portland cement—Tunnel lining—Delaware aqueduct. Clark and Spann 325
Sprague, John C.—How to design concrete mixtures? (JPP 35-21) 297
—Effects of materials on cracking tendency in dams. (JPP 37-67) 700
—Disc. Discrepancies between the volume of fresh concrete at the ready-mix plants and the volume in final placement. (Suppl. '41) 656–1

Stanton, Thomas E.—Concrete performance in an arid climate..... 141
Stephens, A. W.—Proposed building regulations for reinforced concrete. Report of Com. 318..... 77
—Disc. Com. (June '41 Jl.)..... 140-1
STRUCTURAL MEMBERS
Columns—High yield point reinforcement. Germundsson..... 569
T-beams—Long time overload tests. Grinter and Kepford..... 433
Stucco mechanically polished on Columbia Broadcasting Studios. Kaspareit.... 605
Subways—Chicago's initial system. Girard..... 473
Sulfur mixtures for capping. (JPP 37-68) Collins..... 693
Sulphur water—Effect of. Nelles..... 441
SURFACES
Stucco—Polished—Columbia broadcasting studios. Kaspareit..... 605

T

Technical papers—Art of presenting. Crum..... 589
Technical tedium or otherwise. Crum.... 589
Technical tedium or otherwise. (JPP 37-71) Bishop..... 699
TESTS AND FIELD CONTROL
Methods—Paving—Texas. Cape..... 413
Precision method—Ready-mix Knopel... 649
Procedure—Pennsylvania turnpike. Tyler. 361
Tests for scouring of concrete by sand-laden water. (JPP 37-63)..... 75
TESTS OF MEMBERS AND COMPLETED STRUCTURES
Floor panels—T-beams—Long time overload tests. Grinter and Kepford..... 433
Pavement—Arid climate. Stanton..... 141
T-beam floor panels—Long time overload. Grinter and Kepford..... 433
Thorud, B. M. (with A. M. Korsmo)—Cracks in exterior masonry bearing walls occurring where concrete roof and floor slabs bear on the walls..... 49
Tremper, Bailey—Evidence in Washington of deterioration of concrete through reactions between aggregates and high-alkali cements 673
Tschebotarioff, Gregory P.—Design of light-weight zonolite concrete mixes..... 509
Tunnels—Chicago subway. Girard..... 473
Tunnel lining—Delaware aqueduct. Clark and Spann..... 325
Tunnel lining methods for concrete compared. Tuthill..... 29
Tunnel lining practice on the Delaware aqueduct. Clark and Spann..... 325
—Disc. Conv., Vidal, Pearson, Tuthill, Levison, Spann. (Suppl. '41)..... 348-1
Tuthill, Lewis H.—Tunnel lining methods for concrete compared..... 29
—Why does concrete sometimes stick to metal forms? (JPP 37-66)..... 298
—Disc. Tunnel lining practice on the Delaware aqueduct. (Suppl. '41)... 348-1
—Disc. Cracking in concrete due to expansive reaction between aggregate and high-alkali cement as evidenced in Parker Dam. (Suppl. '41)..... 568-1
—Disc. Design and control of paving concrete in Iowa. (Suppl. '41)..... 588-1
Twelve-year record of concrete mixtures. Glover..... 269
—Disc. Abrams, Glover. (June '41 Jl.) 280-1
—**Erratum**—Fig. B and C in the discussion were interchanged as published June, p. 280-10.
Tyler, I. L.—Concrete control on the Pennsylvania Turnpike..... 361
—Disc. (Suppl. '41)..... 376-1
The use of absorptive wall boards for concrete forms. Johnson..... 621

U

Use of carbon dioxide to reduce efflorescence on asbestos-cement shingles. Hutchcroft and Anderson..... 597
Unusual concrete roof of hollow girders and precast slabs. Hadley..... 453
—Disc. Peterson. (Suppl. '41)..... 460-1

V

Vermiculite—Zonolite—Light-weight aggregate. Tschebotarioff..... 509
Vidal, E. N.—Disc. Tunnel lining practice on the Delaware aqueduct. (Suppl. '41)..... 348-1
Weathering resistance of concretes containing fly-ash cements. Davis, Davis and Kelly..... 281
—Disc. Nelles. (June '41 Jl.)..... 296-1
Ida B. Wells low-cost housing project in Chicago. Metz..... 461
—Disc. Korsmo, Metz. (Suppl. '41).. 472-1

W

Whitney, Charles S.—Plain and reinforced concrete arches—Report of Com. 312..... 1
—Disc. (Suppl. '41)..... 28-1
Whitten, Herbert J.—Disc. Discrepancies between the volume of fresh concrete at the ready-mix plants and the volume in final placement. (Suppl. '41)..... 656-1
Why does concrete sometimes stick to metal forms? (JPP 37-66) Tuthill..... 298
Withey, M. O.—Disc. 2 papers. Design of, and Construction of Chicago's initial system of subways. (Suppl. '41)..... 508-1

—Disc. Columns with high yield point reinforcement designed under the ACI code. (Suppl. '41)..... 576–1

Y

Yield — Volume discrepancies — Ready-mix. Knopel..... 649
Young, R. B.—The American Concrete Institute—How it functions—What it stands for..... 529

—Disc. 2 papers. Design of, and Construction of Chicago's initial system of subways. (Suppl. '41)..... 508–1
—Disc. Grouting of concrete structures. (Suppl. '41)..... 648–1

Z

Zipprodt, R. R.—Proposed building regulations for reinforced concrete. Report of Com. 318..... 77
—Disc. (June '41 Jl.)..... 140–1
Zonolite—Light-weight concrete mixes. Tschebotarioff..... 509

INDEX

CURRENT REVIEWS

FROM JOURNAL OF THE CONCRETE INSTITUTE, Vol. 12, Sept. 1940 to June 1941

For information as to indexing methods see Proceedings *Index, p. 713*

A

Aeration—Effect on properties of cement. (Review) Watanabe. *Assoc. of Japanese Portland Cement Engineers.* 617

ARCHITECTURAL DESIGN

Finish—Interior. (Review) *Engineering News-Record*..... 615

Wall slabs—Lace curtains. (Review) *Engineering News-Record*..... 189

B

Belt transportation of aggregate—Shasta dam. (Review) *Engineering News-Record*..... 190

Bridge piers—On long steel piles—Model tests. (Review) Comber and Coan. *Proc. Amer. Soc. C. E.*..... 189

Bond resistance—Progressive. (Review) Gilkey, Chamberlin and Beal. *Iowa Eng. Exp. Sta. Bull. 147*..... 708

Box beams—Precast—High strength. (Review) Hadley. *Engineering News-Record*.. 614

BRIDGES

Arch viaduct—George Washington—Form erection. (Review) Sheppard. *Engineering News-Record*..... 190

BUILDINGS

Warehouse — Construction — Moving falsework. (Review) *Engineering News-Record*..... 705

Bundle-bars—Beam tests. (Review) Hadley. *Civil Engineering* 710

C

Cantilever forms—Friant Dam. (Review) *Engineering News-Record*..... 706

Catalysts—Surface areas of. (Review) Emmett and Dewitt. *Industrial and Engineering Chemistry*..... 615

Cold weather—Effect on reinforced concrete. (Review) Allin and Turner. *Cement and Lime Manufacture*..... 522

Colloidal carbon—In cement mnaufacture. (Review) Sweitzer and Craig. *Industrial and Engineering Chemistry*..... 191

Color characteristics of cement. (Review) Dawson, Andes and Tiemann. *Industrial and Engineering Chemistry*..... 613

CONSTRUCTION—DETAILS, METHODS AND COSTS

Aggregate—Dam—Shasta—Aggregate production. (Review) *Engineering News-Record*..... 190

Arch viaduct—Form erection. (Review) Sheppard. *Engineering News-Record*..... 190

Building—Strengthening old frame. (Review) Lewellyn. *Engineering News-Record*..... 705

Dam—Friant—Aggregate production. (Review) *Engineering News-Record*..... 190

—Large—Mixing and placing. Review) Ackerman. *Civil Engineering*..... 526

—Mixing and placing—Organization and equipment. (Review) Ackerman. *Civil Engineering*..... 303

—Outlet—Plant. (Review) Wernentin. *Engineering News-Record*..... 615

—Shasta—Aggregate production. (Re-view) *Engineering News-Record*..... 189

—Symposium. (Review) Paul and Jacobs. *Proc. Am. Soc. C. E.*..... 198

Forms—Cantilever—Friant Dam. (Review) *Engineering News-Record*..... 706

Housing—Precast floor and roof. (Review) *Concrete Building and Concrete Products*.. 708

Hydro development—Claytor. (Review) Sporn and Kammer. *Engineering News-Record*..... 707

Joints—Design of dams. (Review) Steele. *Proc. Am. Soc. C. E.*..... 199

—Expansion—Filling and sealing. (Review) Crandell. *Highway Research Board*..... 521

—Spacing. (Review) Kelley. *Highway Research Board*..... 526

Placement—Pumpcrete. (Review) Kayser. *Beton und Eisen*..... 709

Prestress—High tension wire reinforcing. (Review) Eriksson. *Teknisk Tidskrift*... 196

Reservoir roof—Precast columns and girders. (Review) *Engineering News-Record*.... 613

Soil cement runways—Army airbase. (Review) *Engineering News-Record*..... 706

Tanks—Sewer—Forming. (Review) *Engineering News-Record*..... 614

Warehouse—Moving falsework. (Review) *Engineering News-Record*..... 705

Continuous reinforcement—Concrete pavements. (Review) Cashell. *Highway Research Board*..... 524

Control—Mixture design. (Review) Tyler. *Proc. Am. Soc. C. E.*..... 199

D

DAMS

Masonry—Joints—Construction. (Review) Steele. *Proc. Am. Soc. C. E.* 199
Masonry—Symposium. (Review) Houk and Keener, Lieurance. *Proc. Am. Soc. C. E.* 198
Mass concrete—Construction—Organization and equipment. (Review) Ackerman. *Civil Engineering* 303
Denison Dam—Construction plant. (Review) Wernentin. *Engineering News-Record* 615
Dowels—Road slab. (Review) Sack. *Die Betonstrasse* 706

DURABILITY

Disintegration—Effect of freezing and thawing. (Review) Reagel. *Highway Research Board* 522
—Parker dam. (Review) Blanks. *Engineering News-Record* 705
—Research on. (Review) Mattimore. *Highway Research Board* 524
—Factors affecting. (Review) Wood. *Nat'l. Sand and Gravel Assn.* 197

E

Elasticity—Modulus—Practical values. (Review) *LeGenie Civil* 194
Electrical resistance—Moisture measurement in pavements. (Review) Bouyoucos. *Mich. Agri. Exp. Sta.* 307

ENGINEERING DESIGN

Beams—Shear and bond stresses. (Review) Moorman. *Civil Engineering* 706
Chimneys—Temperature stresses. (Review) Pieters. *Beton und Eisen* 707
Dams—Symposium. (Review) Houk and Keener, Lieurance. *Proc. Am. Soc. C. E.*. 198
Members—Plastic theory. (Review) Whitney. *Proc. Am. Soc. C. E.* 527
Pavements—Current research. (Review) Anderson. *Highway Research Board* 195
Pavement—Investigation in Michigan. (Review) Kushing. *Highway Research Board* 525
Plastic theory. (Review) Whitney. *Proc. Am. Soc. C. E.* 527
Slabs—Review of analyses. (Review) Newmark. *Civil Engineering* 199
Expansion joints—Filling and sealing. (Review) Crandell. *Highway Research Board.*. 521
—Road slabs—Dowels. (Review) Sack. *Die Betonstrasse* 706

F

Falsework—Moving—Warehouse construction. (Review) *Engineering News-Record* 705
Field-spliced precast arch frames. (Review) Weiler. *Engineering News-Record* 614
Flotation process in cement manufacture. (Review) Englehart. *Industrial and Engineering Chemistry* 189
Forms—Arch viaduct—Traveler erects. (Review) Sheppard. *Engineering News-Record* 190
Foundation consolidation—Claytor hydro development. (Review) Sporn and Kammer. *Engineering News-Record* 707
Foundations—Dams—Symposium. (Review) Paul and Jacobs. *Proc. Am. Soc. C. E.* 198
Freezing—Effect on reinforced concrete. (Review) Allin and Turner. *Cement and Lime Manufacture* 522
—stability — Porous material. (Review) Royen. *Teknisk Tidskrift* 302
—and thawing investigations. (Review) Reagel. *Highway Research Baord* 522
—and thawing—Resistance to. (Review) Wood. *Nat'l Sand and Gravel Assn.* 197

G

Garnet—hydrogarnet—Relation to hydration of portland cement. (Review) Flint, McMurdie and Wells. *Jl. of Research, Nat'l. Bureau of Stds.* 616
Geological problems — Dams. (Review) Crosby. *Proc. Am. Soc. C. E.* 199
Granulometric analysis for powders. (Review) Gooden and Smith. *Industrial and Engineering Chemistry* 192
Grouting—Claytor hydro development. (Review) Sporn and Kammer. *Engineering News-Record* 707

H

Highway Research Board—Proceedings. (Review) *Proc. Highway Research Board* 193
Humidity—Method of determining moisture in hardened concrete. (Review) Gause and Tucker, Jr. *National Bureau of Standards*.. 301
Hydration—Heat liberated—Importance in large masses. (Review) *LeGenie Civil* 191

I

Ice removal—Common salt on pavements. (Review) Collins. *Roads and Road Construction* 305
Iron-rich cements—Studies of (Review) Burdick. *National Bureau of Standards* 301

J

Joints — Construction — Dams. (Review) Steele. *Proc. Am. Soc. C. E.* 199

L

Lace curtains for walls. (Review) *Engineering News-Record* 189

LAWS AND PROPERTIES

Aeration—General effect on portland cement. (Review) Watanabe. *Assoc. of Japanese Portland Cement Engineers* 617
Bond—Relation to strength. (Review) Gilkey, Chamberlin and Beal. *Iowa Eng. Exp. Sta. Bull. 147* 708

Durability—Factors affecting. (Review) Wood. *Nat'l Sand & Gravel Assn*..... 197
—Resistance to freezing and thawing. (Review) Reagel. *Highway Research Board*. 522
—Resistance to sea water. (Review) Hammond. *Engineering News-Record*..... 615
Expansion—Reaction between cement and aggregate. (Review) Stanton. *Proc. Am. Soc. C. E.*..... 521
Heat of hydration—Large masses. (Review) *LeGenie Civil*..... 191
Low heat cement—In bridge construction. (Review) Lehman and Erickson. *Engineering News-Record*..... 193
Modulus of elasticity—Practical values. (Review) *LeGenie Civil*..... 194
Resistance to freezing and thawing. (Review) Wood. *Nat'l Sand and Gravel Assn*..... 197
Setting time—Effect of admixtures. (Review) *Technical News Bulletin*..... 302
Stability—At low temperatures. (Review) Royen. *Teknisk Tidskrift*..... 302
Strength—Early hardening of aluminous cements. (Review) Gottlieb. *Cement & Lime Manufacture*..... 194
—Relation of 7 and 28 day values. (Review) Finkbiner and Harra. *Engineering News-Record*..... 190
Thermal coefficient of expansion. (Review) Meyers. *Industrial and Engineering Chemistry*..... 192
Lime—Ferris oxide—Silica—Studies of iron-rich cements. (Review) Burdick. *National Bureau of Standards*..... 301
Low heat reduces cracking. (Review) Lehman and Erickson. *Engineering News-Record*... 193

M

Masonry dams — Symposium. (Review) Houk and Keener, Lieurance. *Proc. Am. Soc. C. E.*..... 198

MATERIALS AND TESTS

Admixtures—Effect on temperature and setting time. (Review) *Technical News Bulletin*..... 302
—Puzzolan. (Review) Larmour, McMaster and Jacques. *Rock Products*..... 708
Aggregate—Freezing and thawing resistance. (Review) Wood. *Nat'l Sand and Gravel Assn*..... 197
—Preparation—Shasta dam. (Review) *Engineering News-Record*..... 189
—Production—Friant dam. (Review) *Engineering News-Record*..... 190
—Production—Shasta dam. (Review) *Engineering News-Record*..... 190
—Reaction with cement—Expansion. (Review) Stanton. *Proc. Am. Soc. C. E.*..... 521
Cement — A.S.T.M. Standards, 1940-41. (Review) *A.S.T.M.*..... 191
Cements—Aluminous—Hardening at high and low temperatures. (Review) Gottlieb. *Cement and Lime Manufacture*..... 194
—Color characteristics. (Review) Dawson, Andes, and Tiemann. *Industrial and Engineering Chemistry*..... 613
—High Silica—In Russia. (Review) *LeGenie Civil*..... 192
—Hydration—Heat liberated. (Review) *LeGenie Civil*..... 191
—Iron-rich—Studies of (Review) Burdick. *National Bureau of Standards*..... 301
—Low heat—In bridge. (Review) Lehman and Erickson. *Engineering News-Record*. 193
—Manufacture — Flotation process. (Review) Englehart. *Industrial and Engineering Chemistry*..... 189
—Ordinary and rapid hardening—British specifications. (Review) *Cement and Lime Manufacture*..... 301
—Reaction with aggregate—Expansion. (Review) Stanton. *Proc. Am. Soc. C. E.* 521
—Special—Dams—Symposium. (Review) Tyler. *Proc. Am. Soc. C. E.*..... 199
—Surface areas. (Review) Emmett and DeWitt. *Industrial and Engineering Chemistry*..... 615
Cementitious materials—Porous—Freezing stability. (Review) Royen. *Teknisk Tidskrift*..... 302
Joint fillers—Sealing expansion joints. (Review) Crandell. *Highway Research Board* 521
Portland cement—Garnet-hydrogarnet. (Review) Flint, McMurdie and Wells. *Jl. of Research of Nat'l .Bureau of Stds*..... 616
—Manufacture—Colloidal carbon as grinding aid. (Review) Sweitzer and Craig. *Industrial and Engineering Chemistry*..... 191
—Heat treatment and cooling clinker. (Review) Ward. *Jl. of Research of Nat'l Bureau of Stds*..... 616
—Potassium sulfate. (Review) Kalousek, Jumper and Tregoning. *Rock Products* 707
—Oxides extracted in Merriman's sugar test. (Review) Flint and Bates. *Rock Products*..... 192
—Particle size—Effect on properties. (Review) Anderegg. *Rock Products*..... 193
—Sugar method. (Review) Wiley. *Rock Products*..... 613
—Thermal coefficient of expansion. (Review) Meyers. *Industrial and Engineering Chemistry*..... 192
Powders — Particle diameter. (Review) Gooden and Smith. *Industrial and Engineering Chemistry* 192
Sawdust-concrete. (Review) Neubauer. *Agriculture Engineering*..... 304
Merriman's sugar test—Oxides extracted from portland cement. (Review) Flint and Bates. *Rock Products*..... 192

MIXTURES
Analysis—Moisture condition. (Review) Gause and Tucker Jr. *National Bureau of Standards*... 301
Design—Comparison of factors—Oregon state highway. (Review) Finkbiner, Harra and White. *Engineering News-Record*... 190
—Control for dams. (Review) Tyler. *Proc. Am. Soc. C. E.*... 199
Modulus of elasticity—Practical values. (Review) *LeGenie Civil*... 194
Moisture—Soils and pavements—Measurement by electrical resistance method. (Review) Bouyoucos. *Mich. Agri. Exp. Sta.*... 307
Parker dam—Deterioration. (Review) Blanks. *Engineering News-Record*... 705
Particle diameter of powders. (Review) Gooden and Smith. *Industrial and Engineering Chemistry*... 192
—size distribution of portland cement. (Review) Anderegg. *Rock Products*... 193

P

PAVEMENT
Design—Investigation in Michigan. (Review) Kushing. *Highway Research Board*... 525
Highway—Continuous reinforcement. (Review) Cashell. *Highway Research Board* 524
—Control of warping. (Review) Wills *Highway Research Board*... 523
—Joint spacing. (Review) Kelley. *Highway Research Board*... 526
—Spacing of expansion joints. (Review) Anderson. *Highway Research Board*... 523
Ice removal—Common salt. (Review) Collins. *Roads and Road Construction*... 305
Research—Structural design. (Review) Anderson. *Highway Research Board*... 195
Road—Moisture—Measurement—Continuous. (Review) Bouyoucos *Mich. Agri. Exp. Sta.*... 307
—slab—Dowels. (Review) Sack. *Die Betonstrasse*... 706
Runways—Soil cement—Enrichment in top inch. (Review) *Engineering News-Record*... 706
Test road—Ohio. (Review) Litehiser and Allen. *Ohio Dept. of Highways*... 196
Plastic theory—Reinforced concrete design. (Review) Whitney. *Proc. Am. Soc. C. E.*. 527
Potassium sulfate in cement clinker. (Review) Kalousek, Jumper and Tregoning. *Rock Products*... 707
PRECAST UNITS
Arches—Field-spliced. (Review) Weiler. *Engineering News-Record*... 614
Beams—Box—Precast. (Review) Hadley. *Engineering News-Record*... 614
Columns and girders—Reservoir roof. (Review) *Engineering News-Record*... 613
Floor and roof beams—Housing. (Review) *Concrete Building and Concrete Products*... 708
Prestressed beams—Tests of. (Review) Oppermann. *Beton und Eisen*... 710
—concrete—Stringconcrete. (Review) Eriksson. *Teknisk Tidskrift*... 196
—concrete water tanks. (Review) *Engineering News-Record*... 706
Pumpcrete—Production and use. (Review) Kayser. *Beton und Eisen*... 709
Puzzolan—Evaluating admixture. (Review) Larmour, McMaster and Jaques. *Rock Products*... 708

R

RESEARCH
Disintegration. (Review) Mattimore. *Highway Research Board*... 524
Highway—Proceedings, Highway Research Board. (Review) *Proc. Hgihway Research Board*... 193
Pavement design—Structural. (Review) Anderson. *Highway Research Board*... 195
—Expansion joint spacing. (Review) Anderson. *Highway Research Board*... 523
RESERVOIRS AND TANKS
Circular—Sewage plant. (Review) *Engineering News-Record*... 614
Roof—Precast supports and girders. (Review) *Engineering News-Record*... 613
Water tanks—Prestressed. (Review) *Engineering News-Record*... 706

S

Salt—Ice removal from pavements. (Review) Collins. *Roads and Road Construction*... 305
—scaling — Pavement-checking. (Review) Moore. *Engineering News-Record*... 617
Sawdust-concrete. (Review) Neubauer. *Agriculture Engineering*... 304
Scaling — Pavement — Checking. (Review) Moore. *Engineering News-Record*... 617
Seawater resistant concrete. (Review) Hammond. *Engineering News-Record*... 615
Silica cements in Russia. (Review) *LeGenie Civil*... 192
Slabs—Suspended walls—Lace curtains. (Review) *Engineering News-Record*... 189
Soil cement runway for army airbase. (Review) *Engineering News-Record*... 706
Strengthening old building frame. (Review) Lewellyn. *Engineering News-Record*... 705
String concrete. (Review) Eriksson. *Teknisk Tidskrift*... 196
SPECIFICATIONS
Cement — A.S.T.M. Standards, 1940-41 (Review) *A.S.T.M.*... 191
—Ordinary and rapid hardening—British standards. (Review) *Cement and Lime Manufacture*... 301
Sugar test for cement. (Review) Wiley. *Rock Products*... 613

SURFACES
Surface areas—Deterioration in cements. (Review) Emmett and DeWitt. *Industrial and Engineering Chemistry*..... 615
Finish—Painted. (Review) *Engineering News-Record*..... 615

T

Temperature stresses in chimneys. (Review) Pieters. *Beton und Eisen*..... 707
Test road in Ohio. (Review) Litehiser and Allen. *Ohio Dept. of Highways*..... 196

TESTS OF MEMBERS AND COMPLETED STRUCTURES
Beams—Box—Precast. (Review) Hadley. *Engineering News-Record*..... 614
—Bundle-bars. (Review) Hadley. *Civil Engineering*..... 710
—Prestressed. (Review) Oppermann. *Beton und Eisen*..... 710
Bridge pier models—On long steel piles. (Review) Comber and Coan. *Proc. Amer. Soc. C. E.*..... 189
Pavement slabs—Scaling. (Review) Moore. *Engineering News-Record*..... 617
—Test road in Ohio. (Review) Litehiser and Allen. *Ohio Dept. of Highways*..... 196
Slabs—Results compared with theoretical analyses. (Review) Newmark. *Civil Engineering*..... 199
Thawing and freezing investigations. (Review) Reagel. *Highway Research Board*..... 522
Traffic in London, England. (Review) Wolff. *Die Betonstrasse*..... 705

W

Warping of concrete pavements—Control of. (Review) Wills. *Highway Research Board*.. 523
Wedge-shaped beams—Shear and bond. (Review) Moorman. *Civil Engineering*..... 706
